Front Glide	5	8	1	1
Front Swim	299	298	329	228
Sidestroke	5	4	3	7
Survival Back Stroke	33	56	54	40

Strokes for clients not passing

'...The OCPMS team has developed a way to export from our systems to do this all online and give each instructor instant access to all of their profile sheets.

As this is instant it means we do not have to spend weeks of checking, filling and sorting. The process eliminates the possibility of losing any of this valuable information. This has released one staff member for eight weeks per year to assist in other ways.'

Lee Duffy - City of Wanneroo Swim School Coordinator

'That it is all on there and no missing sheets and how many attempts'

'Easier to write profiles'

'Easier to find client history'

'Teacher availabilities and other teachers contacts'

'Easy to understand'

'Has attempts without counting'

'Simple/easy to use'

'Faster to write a profile'

'Easy to see past results and comments'

'The ease of completing each profile'

'Faster to find things than paper copies'

'Easy to modify following a reassessment'

'Able to write as much as you like not limited on space'

Teacher feedback - City of Wanneroo

OCPMS

ONLINE CLIENT PROFILE MANAGEMENT SYSTEM

The software suite is designed to provide the Swim School Administration with the tools necessary to efficiently manage clients and staff involved in their swim programmes.

There are many statistics available via the system to enable quick and accurate review of staff and client performance. This information is vital to efficiently organise professional development sessions providing targeted information, based on historic records as to the teaching of swim skills and the individual elements which may require fine tuning.
